

Historical material pertaining to Greenland

The Greenland Registry is one joint, online database with information about archival material and ethnographic objects pertaining to Greenland, all within the Danish Realm.

Background

Greenland, the Faroe Islands, and Denmark makes up the Danish Realm, and the three countries share a common history.

Today, the historical material from the common history is situated in many different places. This can make the process of figuring out how to start one's search, difficult.

Discover knowledge regarding

- Artists inspired by Greenland
- Individual and family history
